English Translation of Dr. Hassan Abbasi's Lecture

Lecturer: Dr. Hassan Abbasi, Top Advisor to Islamic Republic of Iran

Date of lecture: Around May 23, 2004

Place of lecture: Islamic Student Center at Tehran University.

Greetings to all --- (along with recitation of Quranic verses). I congratulate everyone on the anniversary occasion of Khorramshahr freedom and on my own behalf, my condolences to all of you dears, of the worldwide attack of the world's non-believers on the Islamic lands and joining of the blood of the Shiite youths of Karbala, Najaf with that of the same belief in Gaza and Rafah!

In the time of our youth in the early 1970's of the last century, a few years before the Islamic revolution, there was a high-jacking, with some Israelis on-board, a number of Jews. This airplane was taken to Entebbe, Uganda. Uganda's dictator was Idi Amin, the leader of that country. The Israelis in a bloody fashion, in order to release the hostages of the plane, killed every single person at that airport and annihilated all of the existing planes there. This action bore a special message. I saw and examined closely the documents of this event in the books of the country's intelligent services that was SAVAK and anti-intelligence dept, which were translated before the revolution and after the revolution when these documents were published. The event of the high-jacking and the operations, later called, 90 minute-Entebbe, and the fact it had a very important message for me to notice. And that was when the Palestinians high-jacked the plane and took it to Entebbe, in order to transfer it to someplace else, in Entebbe, whoever was a non-Jewish, they de-planed them there. The hostage rescue forces and the intelligence team work was to get info from those who have been saved from the airplane and had come out. They are asked of the looks and number and specifics of the hostage takers. When these guys were going to ask of these people about their so called "terrorists", exactly in such conditions, an old and frail woman who was a Jew, but in her birth certificate it was not mentioned, and that they had not noticed it and had released her along with those not Jewish, they took notice of her. The same Mr. Ariel Sharon, Israel's present Prime Minister of the Zionist regime was the commander of the special forces and the head of the air command units of the Israeli army. They brought this old Jewish woman and talked to her. She tells them that they were so many and their

specifics were as such. She spoke one sentence that in those anti-intelligent books of the country's related directorate before the revolution, and this sentence was very much impressed upon. That old woman said that when they separated the Jewish queue from the non-Jewish queue in the plane, they kept the Jews on the seats in the plane and whoever was non-Jewish, were being deplaned, for one second I shivered of the innocence of the Jews and I thought to myself: "What good is Israel for?". Israel is existing and they take Jews as hostages in a plane!!! What good is Israel for? This was so much heartbreaking for the joint chiefs of staff of the Israeli army that they prepared **all** of their units. They go to Entebbe, land there and rescue their hostages and kill all the Palestinians, so that, this thought will not bear in anyone's mind ever again and to leave a long lasting impression. They destroyed the totality of the airport and every plane that existed there. This film or in reality this scene, was later made into a movie starring Charles Bronson, the famous actor. This film, "90minute-Entebbe", You can see how simply with 106 guns that is mounted on jeeps that they bring out from C130's and they destroy all of that area. That was Israel's **SPECIAL** message. On the basis of that old lady's comment that with existence of Israel, why something like this should happen? And what is Israel good for?

When in Bosnia and Herzegovina they were committing mass murders, I always asked myself, what is Islamic Republic good for? When everyday we see the streets of Palestine, in the West Bank strip, and in the Gaza, the bulldozers are moving and put their blades under the people's houses and demolish them in front of the world's media's cameras, and the women outside their houses are hitting themselves on their heads. Qatar, condemns it, Bahrain condemns it, Kuwait condemns it, outside of the world of Islam, Japan, Italy, Sweden, and Brazil also condemn it, and Islamic Republic of Iran also condemns it!! I thought to myself, "what is the Islamic Republic of Iran good for?". The difference between Islamic Republic of Iran, with 70 million people, with two strong armies, and a powerful political structure, compare to Qatar and compare to Kuwait, compare to Burkina Faso, that they protest, what is the Islamic Republic of Iran good for? That one Jew, in one corner of the world, in reality, scratches a finger-nail, and the entire world body of Zionism breaks into a loud roar, and in Karbala and Najaf, and in Rafah, Jenin and in Gaza and Turkar over to the bodies of the prophet's children, the American, Israeli and British tanks run over the corpses of our youths and the officials of our country only condemn it!!!! From a position of weakness, they speak of dialogue!!! And, oh, shame on you, that still you talk of invitation to dialogue and talk of dialogues. And in the bitterest sense, I remember a joke that they say a man was walking with his wife, in a desert, thieves got hold of him, around the man, they drew a line, they raped his woman, and told him, we dare you cross the line! If you dare, cross the line!!! The decree of the leaders of 60 Islamic countries, is like the decree of that man in the desert who they have drawn a line around him and they are raping his woman and sanctity/moral character. Same is woman here meaning their country, that one after another the Islamic world countries are under the western tanks, and their women are being raped in all the whole Islamic nations and their belief is

being attacked, and yet all these guys talk of dialogue. Talk of tension reduction measures. What is the difference between the President of the Islamic Republic of Iran and Moamar Ghaddafi, here? What is the difference between Iranian leaders and the leaders of other nations? This subsided anger that has taken over the throats of the youth of Islam, where should it be thrown out at? It is four years now that I am screaming that world in general and Islamic world in particular is looking for an insurgent and not for a leader who talks of civilizations' dialogue. And the West, in order to confront this, she herself, re-introduced Che Geurra to the Islamic world, and that, if there is going to be a insurgence entity, then you need to follow the path of Che Guerra. This is not un-related that the Islamic Republic in the past year has published 36 books on Che Guerra. Do not go and follow after the spirit of holy fighters! The Anglo-Saxons, the English, the Americans, the Australians and the Canadians have a doctrine. Every nation's proverbs are its doctrine. This doctrine is convulsively dirty. They say if they tried to invade you, and you felt you can not resist, greet it, so that you can enjoy it!!!! You be surprised, the basis of the knowledge of the international relations in the circle of Anglo-Saxons is this filthy English reportage and sayings!!! They instill this to nations that when you are being invaded, you know you can't resist, so therefore, greet it, so that you can enjoy it. Today the mechanism of invasion and attack on nations and people has four key topics:

The first key topic is: Human rights.

The second key topic is: Liberalism. They have translated it into freedom.\

The third key topic is democracy and acceptance of people's vote.

And the fourth key topic is Civil Society.

They invade countries with these four key slogans. You need to pay attention when they(Iraqis) attacked Iran, there was nothing to fool our people to itself. The background of the invasion had no accepting premise, therefore our youths went, stood up, resisted and threw out the enemy. There is not a single span of our homeland in the hand of the enemy now. But why is the groundwork for the West invasion has been accepted in the Islamic world now? Because many of the Islamic countries' leaders are screaming the same four mottos that are groundwork for invasion. There is no basic difference between the democracy which America talks about and those that our leaders speak of. There is no difference between the civil society that Jacque Chirac talks about than those that the Islamic leaders speak of. There is no difference in liberalism and freedom loving of what they say and what is happening in our homeland. You guys have the free trade zones in this country. The free trade zone means the base of operations for liberal democracy!!! There is a marked difference between what our leaders say and what they do. You saw our great supreme leader, in the past three days, attacked liberal democracy three times!!! And that shows, no one, has belief in what he is saying!! The free trade zone, the free economic

zones, that are being opened one day after another in our country, these are the main bastions of liberalism!!! One who has the smallest economic knowledge has to know that the innate nature of these free zones is liberalism!!! In regard to these free trade zones, it looks like what ever our leaders say, the rest do whatever they please!!! Why acceptance of the enemy's attack plan has become a normalcy? Because our President talks of civil society!!! And civil society is exactly that same excuse that the west has come here for!!! And it says we have come to bring reforms to everyone. Reforms in the Greater Middle-East. Bring that shirt over that they have put out in America(USA). Send this shirt to the President of the Islamic Republic of Iran. This is the T-shirt that in America, their youths are wearing. Freedom operation T-shirt in the Middle-East!!! Reforms with bombs and missiles and cruises!!! No, Mr. Khatami, not with the Umberto Eco thoughts and not with Jorgen Habermas followings!!! The dialogue of our President with the world is this(showing off the t-shirt), the map or a t-shirt that the youths are wearing in Los Angeles and elsewhere is this!!! A dialogue, not with one side... Umberto Eco or Jorgen Habermas!! A dialogue you see, of missiles, tanks, and in the middle of it, Iran is the target!!! And still talk of dialogue of Civilization!!!??? You, that continuously, for six years, talked of dialogue, have made the circle of our borders, influence yet smaller!!! You have spoken of dialogue between civilizations and have made the circle of our enemy closer to us!!! What has been the results of this dialogues amongst civilizations? Wasn't it the fall of Afghanistan and Iraq? Why your dialogue between civilizations didn't stop the war between civilizations? Liberalism, civil society, human rights, and democracy seeking of the thinkers of our country has the results of missiles, bombs and bullets that the Americans made t-shirts for and put that on the bodies of their youth. This is the dialogue of civilizations!!!! This is(pointing to the fallen t-shirt on the table) the dialogue of civilizations!!! Dialogue of bullets, rocket fragments, Napalm bomb, diluted uranium, to the bodies of the youth of the Shiites in Iraq, Palestine and Afghanistan. Still (talk of) Umberto Eco ? Still Jorgen Habermas? So they tell us, if you were invaded and you couldn't resist, then greet it, so you can enjoy the rape!!! You can't resist the civil society!!! You can't resist the world wide democratic aspirations!!! You can't resist the world acceptance of the western democracy. Accept it and enjoy it !!! Here is, how the invasion of west, gets acceptance!!!

Unlike the Iraqi's invasion that took place and everyone stood up to it. These mottos are pretty, and these beautiful mottos fool our youth. Human rights was the right of that human in Abu Ghoraib prison that you saw. They force forty men and women of Islam to conduct the gruesome sexual acts together. And the American and British soldiers stand there and laugh at them. And they put it on different internet sites, so that everyone should know how these guys will react. Make sure you see the "Women of Vietnam" book. In the book of "Vietnam Women", their main word is this.!!! This book was written by Vietnamese Women. when Americans were leaving Vietnam, 400,000 prostitutes was the souvenir of American bases to that country!!! They did a work, that Vietnam woman, see that book!!!, "the women of Vietnam", that was published in '59 in Iran. The

Vietnamese women in order to become attractive/accepted by the Americans would go and have surgery to enlarge their eyes. They made extensive use of so much drugs to enlarge their breasts, so that they will be accepted by the American soldiers, 400,000, and now it is still, the beginning in Afghanistan and in Iraq that we see the fiasco of their interactions with what we, as Moslems hold holy. So the groundwork for the Middle East is liberalism, human right, civil society and democracy. How interesting, how similar are Mr. George W. Bush's mottos to those of Mr. Khatami!!! My question to our reformists friends, an answerable question, why is your reform mottos are one by one exactly as those of Mr. George W. Bush, for the reforms in the Middle-East? You, in paving the road for the wars of civilizations before September 11, and that, this notion, that dialogue of civilizations wanted all the world to put down their arms, so that America, Britain and Israel can pick up them up, I have my doubt on this!!!!), Mr. Khatami. You have to answer this!! Your dialogue of civilizations brought about an intoxicating and drunkenness state for the world(of Islam), so that in turn these (enemies) can start their war of civilizations!!! You have to stop your motto!!! What was that red line? I told you these four(showing his four fingers). the red line that they have drawn around the leaders of the Islamic world is this. If you step outside of one of these four, you will be blamed for breaking the laws of liberalism, human rights, civil society, and something, understood, as democratic aspiration, and you will be sentenced by it. They commit murders in Abu Ghoraib prison, and last week, they accuse Islamic Republic of human rights abuses!!! Around Islamic Republic around Islamic countries they have built a wall, have drawn a red line, that if you step outside of it, it is breaking the law, (its abuse of) while at this time they attack the sanctity of the Islamic world and they offend it and the leaders of the Islamic world are not allowed a bit to step out of that circle. Believe me, we have not abused human rights, believe it that we have not abused democracy, believe it that we have not abused the civil society and we are going to reach it. Believe it that we have not abused liberalism. The Islamic world leaders must have courage, declare that Islamic democracy has no bearing with that of the western democracy. Islam has no meeting grounds with the human rights of the west. Islam from the western point of liberalism and that (Islamic) freedom has no such meeting ground. Islam is in war with that thought!!!! "If civil society comes, God will die", as Niche said. Therefore, they have drawn a red line around the Islamic leaders and no one has the right to step outside of this framework. They have lighted up(created) an Achilles' heel. The Achilles' heel and the weak point of the Islamic world, they see as this; if you step outside of these boundaries, we will take your dossier to the UN and in the world body we will get consensus against you!!! How interesting!!!, you see, They put four mouthful of mottos, so that they make the invasion, to the place, tangible and natural, and they draw a line around the Islamic leaders, if you put your feet outside of it, you will be accused of breaking the laws, and the third thing they have done is, if you do this, we will take you to world bodies and will get world consensus against you!!! The name of this action, is, "the art of operation"!!! I congratulate the west's strategists!!! I hold myself in high esteem that I have such opponents and powerful enemies. A person should get ready and flex his

muscles. Not every opponent is worth fighting!!! The last plan that they have devised, in respect to Achilles' heel is the "Walnut Shell" theory. In the walnut shell doctrine, if by chance any country wanted to step outside of those boundaries, fending it off or resisting it, THEY will face up to it!!! In such manner, they don't have the right to produce atomic weapons, so that it could have the equal power as themselves, so they won't allow it to make atomic weapon!!! If here too, it makes a wrong move, again they take it to the United Nations and get a vote against it. What is the next step then??? The next special effort is, if it wanted to attached bomb to his body, and now wanting to defend his sanctity, now they say, look(!), he is a terrorist!!! He is a terrorist !!! What is Islam's armament? What does Quran say? (Reciting some Quranic verses), Quran says arm yourself and fight them when your reputation and sanctity is being attacked by them. But, holy Jihad becomes harshness/savagery by (our) the inside reformist and by the outside world reformist, it becomes terrorism!!!

I have had this honor to attack your liberalism! Attack your civil society!! , attack your human rights!!! Today I have this honor, I should say, non-believers, non-believer's front, the enemies of God, front, and the enemies of the Moslem's front, is nothing but the front for the non-believers!!! If things can be done at this front, be terrorized or horrified, or terrified, **this terror is a holly terror**. Go and write tomorrow that Abbasi, the terror theorist, theorist of the holy terrorism, this terrorism is holly!!! It is not today that we say this, the Hezbollah of Lebanon is trained by this same hands(pointing to his hand!),take good notice, Mr. Khatami, this is not harshness, it is your dialogue of civilizations that has been a blockage/hindrance to the operations of Hezbollah in Lebanon. **Do you see these hands, the Lebanon's Hezbollah, Hamas, and Islamic Jihad, these same hands have trained**. Be sure, that if the young man outside of the borders can stand up like this, we have the ability to train some of those youth right here and slap the Imperialism in the mouth.

Audience sounding off revolutionary rhymes and devotion to the leader cheers...(God is great, Khamenei is leader, death to world dominance, death to America, death to Britain, death to Israel ...).

What is your position as a holy man, in regard to the question of Jihad? Have you ever once given a speech on Jihad?(Refers to a part of Quran in Arabic and asks that recommends harsh treatments...etc) is that harsh acts or not?(and recites yet another verse and asks) is that harsh acts or not? What shall we do with you Mr. Khatami? The head of the Islamic Republic's security commission (NSA)? How far is harsh treatment of others is bad (or unacceptable)? This Islam that you say is the religion of peace, beauty, and sincerely, how many, it has versus, on Jihad and self sacrificing suicidal acts!!! Isn't one of the ten pillars of it Jihad? Isn't a pillar of it called Hajj; Hussein(prophet Mohammad's grandson in Madinah cut his trip half way short, so that he should pay attention to a pillar called Jihad and went to Karbala for it? How are you related to the question of harsh treatment of others here? How far will you give in and avoid tensions? How

far??? This approach that you label others to harsh behavior inside our borders and outside of our borders you label them terrorism does not decrease, a bit, of our responsibility to God and the prophet's and the blood of the youth that today is shed in the Palestine lands and in Iraq and in Afghanistan. Jihad and giving your life(section 27 of Nahjolbalaageh(book of Imam Ali), Jihad is one of the doors to the heaven!!! It's a clothes of respect that dresses its chosen men!!! Ali says, whoever distances himself from this Jihad and this harsh behavior will not wear the clothing of respect. The continuation of the sect 27 of Nahjbalaghesh says, swear to God that they become humiliated unless, in their own home, they fought their enemy! Look at Iraq. It's humiliated. Their women and daughters are in the hands of Americans and 38 countries. 38 countries and their soldiers take away their sanctity and the Iraqi men can't make a sound!! "Those who fought the enemy, in their house, won't be humiliated!!!". How do we describe the harsh behavior in the sanctity of our reform movement??? Up to what point harsh behavior is negative(to you)??? How long do we have to talk of democracy and drink of human rights and see of a civil society and have a bone in our throat and a throne in the eye? And bear the killing of the Moslems??? Wont' they come after us tomorrow???(showing off the t-shirt again). They(Americans) have publicly declared. They are coming!!!" Operation freedom!!!" It comes to free Iran!!!! It comes!!! Their youths, today, are wearing this t-shirt on the streets of Las Vegas!!! In Detroit, in Chicago, in Jacksonville, in Miami, everywhere, he is wearing this!!!! And he is proud of that, his leaders are going to bring reforms to Iran!!!! To the area, and the center of their target is Iran and not any other country!! Our main armament is Jihad! !!! And they are slowing down our Jihad!!! Inside the country on the excuse of harsh behavior and outside on the excuse of terrorism!!! I am proud, that, outside of the country, terrorism , the Hezbollah of Lebanon, is trained by our own hands!!! I am proud!!! If this, inside the country is looked at as harsh behavior by Mr. Khatami, and outside as terrorism, no scaring us, if it could be done that against the non-believers front and against the enemies of God, caused them trembles and shakes them, this is our pride!! **We pride ourselves of this terrorism!!!** With a terrorism that can bring trembles to the pillars of non-believers, this is an anger and harsh behavior that God, brings out of the sleeves of Hezbollah to hit on the head of its enemy!!! And when they defined this four pronged frame work, there is only one way left. Only one way. Only submission, not resistance!!! You have no right to resist! You have no right to nuclear weapons, the world body is in their hands, therefore, you submit and don't talk of terrorism. And there is that line and no one steps outside of that. No one should step outside of it!!! **You have to stay and resist!!!** What is happening in Iraq? 38 countries have their forces in Iraq! Except for Honduras, El Salvador, Dominican Republic, Singapore, Spain, these five countries that recently pulled their forces out, 38 countries, have 200,000 forces in Iraq!!! The official statistics say, 12,000 dead, but unofficial stats say 30,000 dead of civilians are left on the ground. Do you remember, they were saying Christianity is a religion that if you slap one side of their face, Christ has said that they should/will turn the other cheek towards you so you can slap that too!!? Haven't you always heard that they say Jews are innocent/oppresed and been

mistreated??? Have you heard the thinkers say that modernity's offering is peace and friendship? And harsh acts are outcome of religion??? That Christianity, that was supposed, to show the other cheek if hit on one cheek, today their tanks are roaming in Karbala and Najaf!!! The Christian soldiers are in those tanks that are wearing on the arms of the sign of the CRUSADE war of 1000 years ago!!! Dialogue of civilization with tanks!!! That (Jewish) oppressed, on television, is seeing every night, that they are destroying the Palestinian homes, and everyday four homes are coming down on the Palestinian's heads, that if it goes like this no Palestinians will remain in five years time! And that modernity that open minded-thinkers, specially our own President, specially with the fact that he mentions the name of Mr. Umberto Eco, our President in the offerings of modernity, can be responsive/responsible to the fact that modernity has brought about 175 million dead only in the 80 years of the two worldwide brought to humanity. This is not my word. This is the word of Brzezinsky !! In world war one, two, and three(?), was it one side of the world war, religion? Or was it the thought/ideology of Nationalism, Socialism, Liberalism??? These are the modern ideologies. Modernity is the most harsh thought that history of man has so far seen!!! The reform thinking people of ours, let's put a chair here for him and they come answer to us, if you are talking truth, this modernity that brings good life and goodness, why in 80 years has killed 175 million??? Only in world war two, it left 52 million dead for humanity. That poor Christianity, that poor/oppressed Jew, and this poor modernity, from three direction have drawn their blades and they accuse the poor/oppressed Islam of harsh behavior!!! And so that they won't say we are pro-harsh acts, we talk of dialogue between civilizations!!! And put our hand on top of each other waiting!!! How will history judge us??? On the day that they run their tanks on our streets and roads, and build Abu Ghorraib prisons on the outskirts of Tehran and attack our sanctity, would you then say, you were wrong, at that time??? What is happening in Iraq? Nothing, 30,000 dead left their hands and democracy didn't come!!! Only they got rid of Saddam in a magic show and re-hired 400,00 Bathists back to work again!!!! They put them to work and the total oil of Iraq, that is 11% of world's source, with this excuse got out of the hands of Iraqis for good !!! Of 124,000 prophets, more than 50,000 prophets are buried in Iraq. In every two hours a C-5 airplane--Galaxy wide-bodied, the monstrous American airplane, that the nose opens and the tanks go inside, is the heaviest American airplane, lands at Baghdad airport, the 12 flight that they have in 24 hours, they are hauling away, speedily, Iraq's ancient artifacts!!!. Do you remember Baghdad museum as the biggest ancient museum of the people of the Euphrates was plundered???. Had anyone thought of the Estekhbarat of Iraq (intelligent ministry)? You know, right now, every organization in Iran, has an intelligence/security cell. This university, here, has such a cell. Every organization has a security cell. This security cell is part of the intelligent network system of the country. The Ministry of Information system. Any news gathered from any organization or person goes to the internal security information apparatus. News that are gathered from outside also come to this information center. Americans, as soon as they entered Iraq, first they took Ministry of Oil, so that the documents won't be plundered, second, the Information ministry. They

say, themselves, that, the value of this intelligence that they have taken over is over 1,000 billion dollars!!! The ministry has pilled info on every single person over the span of 30 years of "ESTEKHBARAT" of Saddam, they have all the information, on all of the Guerrilla groups. whatever their intelligent services, that had formed cells outside and gathered information, all these cells are now, and so simply in the hands of the American!!! They have erased any relationship that involves themselves and are using this information. One example of it is the MKO organization with 5,000 members!!! All of these guys' info and documents are in the hands of the Americans and they them, themselves, at the service of the Americans!!!! To create such a service of intelligence and security, how much would have cost the Americans? This is what's going on in Iraq!!! All that news and information they have taken in for free!!!! 1,000 billion Dollars!!!

In the design of reforms for the greater middle-East, Mr. George W. Bush declares, well in Afghanistan was undeclared!!!, he declared that, Pashtun language remains, and the official work language was Farsi. They said, the Farsi language has to change and change to the English language. Right now in Kabul University, they are replacing Farsi with English!!!. The Islamic Republic offers hardware services, just last night I saw on news sections that said, Iran has brought over 175 million dollars hardware services for them(Afghans), from, computers, blackboards, desks, etc, but the software, there, not from us who can print Farsi books for there!! Those are being used by American!!! Is this the art of operation of Islamic Republic??? Road and dam and Buda statue, blackboards, computers we take there. The software is being utilized/supplied in Afghanistan by the Americans!!! This national security commission of ours, what are they doing??? Why are you spending people's budget on hardware that in Iraq help stabilized pillars of America's stay in Iraq and against Islam!!! This shameful sentence by our foreign ministry, has forever, been registered, that cousin of the Foreign Minister, that is Mr. Sadegh Kharrazi went to Afghanistan and declared that we are ready to repair the statue of Buda. The religious regime goes to repair/mend a statue????!!! Why don't you tell, that, the two lorries/trucks of books that was sent by us for their schools was sent back by the Americans??? And this, in these same books of yours, are in fact, verses of Jihad and anger/harsh acts. I declare to everyone that, this is betrayal, who, he helps stabilizing the American footholds in Iraq and Afghanistan. The more they stabilize their stay there, tomorrow shall come sooner to put their blades on our necks!!! And any regime's official who help them in Iraq or Afghanistan in this manner, he would be a traitor!!! Traitor to Islam, traitor to Iran and traitor to the constitution and to this nation!!! Why are you bearing expense for hardware in Afghanistan and Iraq? In this dialogue of civilizations where could you spread an iota of Iranian and religious culture/ influence??? Now, they have come to the Arabs, and in the reforms of the Greater Middle-East, they declare, that the Arabic language has no possibility for reform! They must make their official language, just like Turkey, that have made English/Latin, they have to make it English!!! The disaster that happened to Turkey, it is now 75 years, when they made their language English, their ancestry was lost!!! The present Turkish generation, all together, has a 70

year history!!! A strategist, like Hakim Abol-ghasem Ferdowsi (Great Persian poet) when, a disaster happened, and Sultan Mahmoud Ghaznavi, 1000 years ago, decided to install the Turkish language, specific to Kazakhstan, he(Ferdowsi) could have done two things. Put an army together with columns and forces, get on the road, and fight them and not allow Sultan Mahmoud Ghaznavi to do this, or another way, was that he continues writing his great book Shah-Naameh(King-letters).There, he says(translation of one verse of his famous poem), that I suffered, so much, in these 30 years, but, I brought non-Persians to life, with this Farsi language).

(language)!! See, a strategist like Abol Ghasem Ferdowsi, is aware of his time, feels that if he wanted to safeguard Iran, he should strengthen the Persian language. The entity/identity of a nation is its language, is with its race, with its land, with its religion. That day, was with their language, and today westerners have correctly targeted their goal. If they transform the official Arabic language into English, there won't be anything left of Quran!!! George W. Bush officially declared three points: The leaders of Arabic world do no longer have the right to say" With the name of God, the almighty and the merciful". They remove all the Jihad verses from their text books. From Pakistan to Arabia have all been erased. And their official language they must change from Arabic to English!!! This work has begun in Iraq!!! In these busy times, you will open your eyes, and see the next Iraqi generation, now one year has past, in twenty years, you will see that Iraqi's next generation can not read Arabic!!! Imperialism has a huge patience!!! Watch for this mean Britain!!! I am not asking anyone to go, and take over their embassy!!! This embassy has all but removed all their documents and have taken them away. **We must take England itself!** Change of axis of race and/or likings of races of such desired traits, the book, "Women of Vietnam", you should see/read; in the book, "Women of Vietnam", they printed an advertising brochure, that shows American soldiers during their training at their bases!!! My apologies, to the ladies and sisters here, with one hand they hold up their gun and they put their other hand on their crotch. They call both, guns!!! Gun in reality means armament! Every morning at American bases this was exercised. They have orders that when you set foot upon a country, one of your duties is the change in racial condition!!! In Afghanistan, the reason for (women's) suicide and setting themselves on fire, the reason is, that, the European nations that are there, are attacking their sanctities, and these people either suffer from implosion of their family, or they set themselves on fire, or take up arms and fight the Americans!!! And this has begun in Iraq. And today 38 countries have their forces there. And these 38 countries have operational orders to do this!!! You look at the "Full Metal Jacket" movie, and see other movies about Vietnam, where they are fighting over Vietnamese girls, the American soldier yells at his officer: "isn't part of our training to get their land, also their believes, also their women and daughters????". Where has the pride of the Islamic leaders gone??? Isn't, in the pillars of Islamic decrees, even in a most logical and Sharia laws a point where you can not marry a non-Moslem man? And in normal circumstances too!! Forget that, this is war!!!, and the bastard children that in Afghanistan and Iraq,

everyday, their numbers grow and the cultural indifference in this passage. What should be done? Here is the play of the strategists. They have attacked our strategies. I, continuously, repeat these four points, and don't forget it. As a teacher of strategy, I say, do four things: First, know your enemy. Second pay attention and follow thru what his intentions are. The third thing you do, never attack your enemy. And in the fourth step target his strategy and attack his strategy!!! That means make his intentions un-doable!!! Define your enemy well. This enemy has an intention. Get to know his intention. Don't attack him. Attack his intention. West has attacked our intentions. It is making our Jihad thwarted/useless, has made our suicidal self sacrifice weak/idle. Exactly one year ago, last Khordad (Persian month, June), they took in four American Generals in front of the American Congress; they said we attacked Iraq, it's two months and we have established ourselves, there, comfortably. We want to attack Iran, what should we do??? The high commander responded, we need to do two things: First you politicians, culture experts, economists, take away the spirit of the Jihad of self suicidal sacrifice, and second thing you do, erase the feelings of hatred towards Americans in the minds of Iranians. If we do these two jobs, relatively well, we will attack them then!! Very simply!! Therefore, CIA puts out a work-order to replace Imam Hussein with Arnold Schwarzenegger !!! You had heard that, and our own media were a buzz with that news!!! Singers and their actors to come and become popular instead of Imam Hussein!!! Today thanks to the budget of the Iran's Islamic Republic Ministry of Guidance, books of Shakira and in the same chain of Mr. Christina Berg and Madonna and music of Metallica, and the like. By the Guidance Ministry books of Shakira is being published. For replacing of Shakira instead of Imam Hussein and Fatemeh Zahra(prophet's daughter), the government of Islamic Republic has started a good design of dialogue amongst civilizations!!! If these women are trash/corrupt, if their music and their art is degenerating, Mr. Khatami as a holy man and a "SEYYED"(a religious label "sir" for Prophet Mohammed's descendants), why is the Guidance Ministry, in way of displaying degeneracy, and not in the way of reforms, the books of Shakira are being reproduced? If you don't have artistic literacy, you, who was the Minister of Culture, let me tell you, that it is Iranian music that (proper) word is the axis it revolves around, Iranian music gets its melody from poetry. The jazz, rock and pop music, is not poetry influenced/inspired music. What necessity is there for a music that is not poetry initiated, to have their books, published with the people's budget?

In the Islamic Republic, we are publishing books of Satan and the Satanists!!!! So it can replace Imam Hussein!!!! Isn't this in the path of the CIA's design??? Mr. Khatami, and Mr. Rohani, in the National Security Council, do you know of the book "the cultural cold war"??? The cultural cold war on how newspapers, cultural organizations, satellite TV, open minded thinkers, that they send, so they can take away values of a nation??? Of course, your skin for these reform movements efforts, is thicker than that!!!! Reforms with it's corruption would print such things as works of Shakira and "MESR"(sp) publishing would print Satanic books. In my opinion, that ministry, is ministry of non-believers and not Ministry of

Guidance!!! It says, you replace Imam Hussein, negate the Jihad of suicidal self sacrifice, we will attack that country. That is, they are attacking our arms/guns. Our only (true) wealth is Jihad of suicidal self sacrifice. Why some people attach bombs to themselves and tear themselves to pieces??? Is this a bad work/deed??? The night that they poured in and targeted his Excellency's (Hussein's) Mausoleum's roof, I just got home late and I was taking off my clothes, it said suddenly that today the President and his Cabinet with, I thought it is going to say, with military commanders had a joint meetings, or with religious heads had a joint meeting, I saw it say, with governors from all over the country!!!, had a joint meeting!!! And then I just stood there to see what position he is going to take in the face of the American aggression to the roof of the his Excellency Amir (Ali) Mausoleum/shrine. He said that, he, in regards to the event taking shape in Najaf and Karbala, has said that, this was an ugly doing, it was bad and I did not like it! I recall the words of that Israeli woman!!! **What is Israel good for? What is Islamic Republic good for?** That, they attack the sanctity of Imam Hussein and the roof of its Mausoleum and their President (Khatami) says, it was ugly, it was bad, and I didn't like it !!! Do they operate to YOUR likings Mr. Khatami??? If you don't know, know this, in 1990 and (1369-Iranian year) when America wanted to attack Iraq and run it out of Kuwait, United States sent an official letter to the officials of the Islamic Republic. saying that, you be assured, that, we won't attack Najaf, Karbala, Kazamin and Sumara. You don't worry about anything!! !Even if Saddam plant his bombs there!!! What happened today, that America doesn't tell us that it won't attack our holly sites??? That it attacks it readily. It invades there and the lines that the holy leaders there draw, they don't pay any attention to. Do you know why? For THE dialogue of civilizations of your Excellency!!! Because of the politics of tension reduction of you, yourself!!! In the foreseeable document of the regime has come that Iran, in the next 20 years, has to be a source of inspiration!!! What inspiration? One can be inspirational if one steps forward and puts aside non-believers, not an Iran like Qatar, like Japan, or like South Africa, says, I condemn, it was ugly, I didn't like it!!! You call this inspirational??? Now, look at those things that (our) supreme leader of the revolution signs and you don't do his directives. I have declared many times, I have my doubts on Mr. Khatami's dialogue of Civilizations. as a strategic design we should start the groundwork for a strategic war. My surprise is of this, that this question in 1354(1976), three years before Islamic Revolution, in the country of France, its world center was created, that is, in Paris, the world center for international dialogue between civilizations and religions, created by, Roger Garaudy and still this creature of God is its President. What happened that all of a sudden this (idea) was presented in Iran and became world wide phenomena??? Isn't this a conspiracy? They brought four priests from Orthodox church to Iran and sit with four of our holy men having a meeting. You call this dialogue of Civilizations??? What shall be done??? In this question, of what must be done, we have to attack the enemy's strategy. One part of it was done in Najaf and Karbala in the past few days. Americans with British guidance had decided not to create sensitivities in certain areas, and not to go in Shiite communities. Samara, they gave that area, to the Spaniards, Nasseriah, to the Italians. The area of Ali-

Kut, western Ali, eastern Ali had been given to the English, and the Ukrainians, and in fact Qaisarieh, Faw, and Um-al-Qasr was given to the English. Najaf, Karbala to the English and specifically to the Romanians and Bulgarians. They devised it in such a way, that Americans won't be seen by the Shiites, and don't give rise to sensitivities. And if there are any clashes, Americans bring that about in the Sunni sections. This was planned by the British. This was one of their intentions and the other approach was any Iranian that comes for pilgrimage, have a pleasant interaction with them, before, they enter a Shiite section. We would hear the traditional/old fashioned persons who would go to pilgrimage the sites of Karbala and Najaf, and they would say Sir, we ran into the Americans, and what a pleasant interactions !!! God bless them!! They helped us so much. They brought us sweet drinks, They took us with their tanks and helicopters to our destinations, we were lost, they completely swayed to their side that part of our traditional thinking/old fashioned people. The part, the "some kind of new thinkers", that they really have nothing to do with true pilgrimage to Imam Hussein.

End of tape ...
